

# E-DA

## ELECTRIC DISTRIBUTOR OF INGREDIENTS AND CONCENTRATES

The range of electric distributors of minerals and concentrates E-DA is composed of 2 models from 600 L to 1050 L. These machines allow to carry, mix and automatically distribute solid food (cereals, granules, minerals) or liquids. Electrically propelled by a 2000 W motor with 2 batteries which gives 4h of autonomy and allows the crossing of slopes of 14%. Its compact size enables the machine to distribute and move in narrow corridors and to cross and go straight doors with no difficulties.

### 100 % customization tank

To be adapted to various needs and exploitations, the E-DA is equipped by a stainless steel tank of 1 to 5 hoppers.

### A programmed ration

The integrated software make possible to program up to 99 different rations and batches of animals. Simple and intuitive, it only requires few keys to be pressed to change the ration according to the number of animals. At the end of the distribution it's possible to collect the data of the day with a USB stick.

### Extremely precise distribution

The E-DA are standard equipped with an Proportional and Automatic Distribution to Progress. Each hoppers has its own screw independently driven from other screws and hoppers. This process allows, according to the density of the different ingredients to be distributed of the quantity wanted.

- The software manages the distribution
- Gap of distribution < 3%
- Easy for the driver

## STANDARD SPECIFICATION

- Stainless steel tank - 1 hopper
- Proportional and Automatic Distribution to Progress
- Right side distribution 500 mm or 900 mm
- Electric motor 2000 W
- Drive axle with oil bath
- Hand throttle on the handlebar
- 1 drive and guide wheel & 2 carrying wheels
- Total safety stop

## A SELECTION OF OPTIONS

### Distribution software

Management of batches and recipes  
Gap of distribution < 3%

### Fodder pusher blade

To push back the ration while distributing  
the concentrates. Lifting is manual

### Protection tarp

For better preservation of delicate  
products. Protects from birds and dust

Models	E-DA 600	E-DA 800
Capacity (L)	600	800
Capacity with 15 cm extension (L)	800	1050
Number of hopper	1 - 5	
Distribution height (mm)	500 / 900 / 1300	
Distribution	Right or Left	
Motorization	2000 W - 24 Volt	
Number of batteries	2 - 120 Ah	
Autonomy	4 h	
Linear speed	5 km/h moving forward or backward	
Overall height (mm)	1400	1500
Overall length (mm)	2300	
Overall width (mm)	1200	
Unladen weight (kg)	350	400
Slope acceptable	14%	
Max. step height (mm)	20
